PUBLISHER'S MESSAGE

This year has continued to be tough for most of us, with the pandemic continuing to bring challenges to many different aspects of our lives. But despite all the things we have had to face, the one thing that we've seen most of us strive and work for is to continue finding ways to make productive connections.

We realized that even with the imposed restrictions to move around and physically interact with people, that connecting with others is absolutely crucial to our well-being. It is not just to fulfill our needs or to do our work, but for us to be able to live happy and meaningful lives. Thankfully for technology and the resourcefulness of people, we have found ways to protect and even build on the connections we have, as well as find and create new ones along the way.

This is why we at DPC, with our Yellow Pages platforms and technologies, continue to be strongly committed to find ways to empower people to find, create, and more easily facilitate these connections. Providing platforms that can create and maintain these relationships and connections between people, businesses, and other organizations, have always been at the heart of what we have been doing for the past 30 years.

As we continue to go through and battle through this global crisis, we understand more than ever that every connection matters. We acknowledge that we continuously crave for deeper, more engaged, and longer lasting connections. This is why we work to make sure our platforms and services evolve with the growing needs of the people.

We are here to make sure that no matter our circumstance, we can give our users the opportunity to still make the connections that they need. Our main Yellow Pages Print platform continue to provide trusted ways to find, discover and contact businesses, while our revamped online platform utilizes data & analytics, engaging business tools, and personal user design, to make seamless customized recommendations that lead to consequential relationships with businesses and owners.

So whether it is to enable discovery of services or products to uplift their lives, or provide them and their business with complete and advanced online platforms and e-commerce solutions to get their users and customers to connect with them, we will always find a way to help. We ourselves have made many strategic partnerships and purposeful connections with companies like Wix, Google, Facebook, and more, to help enable our clients to pursue stronger bonds with their customers.

We hope that our country and the world continue to heal. Humanity has once again shown its resiliency and resolve in overcoming and becoming better because of all of this. But we realize that what is crucial in enabling these actions is the connections we have made and continue to make. We look forward to continuously helping and empowering more and more people to make these long lasting, meaningful connections and relationships as we move forward to a bigger and better future.

ABOUT THE COVER

For many of us, the global pandemic has forever changed the way we will live our lives. We have had to learn how to adapt with this situation and be resourceful on how to move forward with our work and daily lives. This is why this year's print directory cover shows how the Yellow Pages commitment to continue to find ways to help Filipinos find the right businesses to work with is truer than ever. It aims to visualize how through our various online and offline platforms, it can empower Filipino customers to not only find and discover local businesses, but also learn about new categories, products, and services that are available to them. The platforms also aim to empower Filipinos by making it easier to search through listings via our customized and specialized categorization system as well as direct them to businesses that are nearest to them. In the end, the hope is that it can help Filipinos make more meaningful and long-lasting productive connections with businesses. We hope that this book and our other platforms can continue to help all users find the best way to fully maximize their lives not just during the current crisis, but even after it.

BEST PRACTICES WHEN DOING E-COMMERCE

As business owners, the opportunity for success and sustainability is exciting and challenging at the same time. If you have launched your online store or is still in the planning stages of doing so, it is important to keep in mind that a strong online presence is vital to any business.

It is a fact that competition in the digital space can be tough. You will be competing with local and even international brands for customers who will avail of your products or services. That is why it is important for you to understand every detail of how E-Commerce affects your business. Here are some best practices to help you increase conversions for your ecommerce store.

USE QUALITY PHOTOS AND VIDEOS

Humans are visual creatures. With actual quality images posted in your website, customers are more likely to stick around and learn more about your products and services. It will enable them to trust your brand and develop confidence in you as source.

MAKE NAVIGATION, FILTERING AND SEARCH SIMPLE AND CONVENIENT

Most customers shop online because of convenience - saves them the cost of driving to stores, paying parking fees and even the thought of waiting in line. You can translate the same convenience by making your customer's visit to your website as smoothly as possible.

Design a logical structure for users to navigate and search easily through the pages. Menus are a great way to stay organized and group contents according to relevance. Keep in mind that your objective is to make life easier for consumers and smoothly take them to the most important step - a purchase or other targeted action like leaving contact details, registering or more.

HAVE MULTIPLE WAYS TO CONNECT WITH YOUR BUSINESS

It is important that potential buyers understand that there is somebody on the website available to attend to their needs. The best way to show this is to enable various ways to connect and communicate with them. A contact page with an e-mail, phone number, social media profile links and live chat are a must in your e-commerce website.

ACCEPT AS MANY PAYMENT OPTIONS AS POSSIBLE

Alternative payments options are essential for any ecommerce website regardless of industry. Businesses will get competitive advantage, increased conversion and sales and improved customer confidence by eliminating limited payment options

HAVING REVIEWS AND EMBRACING THEM

Every review posted, good or bad gives you important feedback coming from your actual customers. It will allow you to identify your strengths, weaknesses and areas that need to be focused on. Reviews can influence consumer decisions and also strengthen the brand's credibility. The way you manage these reviews will gain you customer trust and confidence that can also encourage other people to support your business.

IMPORTANT ELEMENTS TO INCLUDE WHEN DESIGNING A WEBSITE

Website is a critical component of any brand's online presence. With the tight competition, having a website might not be enough - layout, design and user experience plays a huge part with how potential and existing customers support a business. Here are some recommended features to take note when designing your website.

YOUR BRAND'S STORY

Customers will support businesses they can connect with. The more consumers understand what the emotional connection your business has with them, they are more likely to choose you over other options available.

WHO YOU ARE AND WHAT YOU DO

A stunning website should also be able to send the message across your target audience. Despite aesthetics, if a customer feels lost about who you are and what your offerings are while looking at your website is definitely a no-no. Your site visitors should always have that confident feeling of what they are expecting from you even with just a few clicks.

RESPONSIVE DESIGN

Making your website responsive is crucial to your business if you want to provide your consumers a great user-experience. Keep in mind that customers use variety of devices to access the web and most often than not, thru their mobile phones. Ensure that your design is adaptive to any device and practically for everyone.

A GREAT USER EXPERIENCE

User Experience also known as UX is an important factor when designing your website. Having a user-centered design will definitely improve the quality of the user's interaction and perceptions about your brand, your products and any related services.

SOCIAL MEDIA ICONS

It is a given that links to your social media like Twitter, Facebook, LinkedIn, etc. should be part of your business website. Your social media icons should be on every page of your website - either in the header or footer. Having them at the right place will invite visitors to be engaged to more of your contents in various platforms.

CALL TO ACTION

Your business website is already a Call-to-Action on its own. Phone numbers, email address or a contact us form requesting for more information are essential in a website. Having them in place will give you the opportunity to never miss any potential client who visited your site.

AN FAQ PAGE

Your FAQ page will be your organized collection of commonly asked questions about your products and services. This quick information reference will guide your customers in making a purchasing decision even without them needing to contact your business.

SOCIAL MEDIA FOR BUSINESS: A MARKETER'S GUIDE

The use of social media for businesses is a great way to connect with customers, learn about competition and develop an identity for a brand. The main social media platforms that can be used for business include Facebook, Twitter, Instagram and LinkedIn. But not all social media platform can be a good fit for every business. It is important to understand that each platform has a mission, purpose and unique audience. Here are descriptions of the most popular media platforms for businesses and decide which among these platforms are suitable and efficient for you.

FACEBOOK

Facebook is considered the most popular social media network that has a varied audience. Currently with billions of active users every month, it is a fact that every business should have at least a Facebook page.

Thru Facebook, be able to share practically everything from photos to important updates relevant to your business. With a business account, you will have access to advertising tools and analytics that can be used to understand what type of followers and customers you have and meet your business goals. Business pages also allow you to customize and highlight information such as contact information, hours of operation, payment channels and the products and services you offer.

INSTAGRAM

Instagram is a visual social media platform with its fair share of one billion active users in 2020. Aside from sharing visually pleasing photo or video contents, Instagram Live and Instagram Stories can be tools for businesses to promote products and services.

But keep in mind that this platform is almost entirely mobile and has built up its name on users being able to engage with more visual content brands. Make sure you have a good eye for detail and at least have basic photography skills that would give your business high-quality photos and videos. Remember, people are visual creatures, content like photos and videos have such great engagement rates.

TWITTER

Twitter is the best platform for businesses who wants to reach and connect with a new audience. This is the go-to social network for you to communicate with your fans and customers effectively. However, since Twitter is great for short updates, images, videos, links, polls and more, not all businesses may find it fitting for them. This platform may not be your kind of social network if you have a highly visual portfolio.

Companies that have interesting content and can be expressed in an engaging 240 characters or fewer, Twitter can be a great tool for quickly spreading the word. The use of hashtags and users with a lot of followers retweeting your content could help your business go viral. In Twitter, a balance between sharing your media and interesting, relevant content is key to engage Twitter users.

PINTEREST

Pinterest is a social network where people find inspiration and ideas for their interests and hobbies. It is known as a "visual discovery engine," since Pinterest is the only social media platform to offer visual search. Users are allowed to save and display content by "pinning" digital bulletin boards that can also be organized by category. With Pins, people find more information like product details and even location maps on products they're looking to buy but not like those of business hours.

Pinterest is recommended for niche businesses. It is a good marketing tool for businesses under categories like DIY projects, fashion, exercise, beauty, photography and food.

SNAPCHAT

Snapchat is another social media platform that supports short, temporary sharing of photos and videos. Like Instagram, this is another mobile-only, visual app known for disappearing content after 24 hours. Businesses who uses Snapchat must make the content fun, brief and engaging. However, aside from the fact that posts are temporary for Snapchat, only users who have added you can view your Stories content.

YOUTUBE

YouTube is a popular video sharing website owned by Google where registered users can upload, share videos, rate and comment on content. Businesses on YouTube must have creative, visual and educational components. It is important to have a dedicated video editor that produces relevant content for the business. But businesses need not to have a channel to market on this platform. Some companies make use of YouTube Influencers who publish regular contents and maintain a large number of audiences. The ability of these YouTubers to sell or recommend a product or service to their audience is an easy way to market your business on the platform.

LINKEDIN

LinkedIn is a powerful platform especially designed for professional networking. Users create profiles that are similar to resumes while companies can create pages that showcase what their business is all about. It is a perfect place to find top talents, maintain professional contacts, build new connections and promote your business.

You can also join industry-specific LinkedIn Groups to ask and answer questions. This will help you position your brand as an industry leader in a specific field and bring users to your company page and website. Like Twitter, it is recommended to have a combination of original and shared contents relevant to your business.

TIKTOK

TikTok is the newest social media platform where users create and share short videos. Given that TikTok is mostly popular to a relatively "young" audience, it can be challenging to hit the right tone to promote a brand. The key here is to have a keen understanding of what your business is about and translate it to adapt to the TikTok app community.

SOCIAL MEDIA MARKETING TIPS

It is a fact that Social Media has become a vital component for any business marketing efforts. With a well-executed strategy, the benefits you get from social media marketing can be endless and difficult to ignore. It can be challenging but taking it seriously can ensure you potential leads, customers, online presence and increase sales. Use these social marketing tips to perfect your strategy until you've finally created a winning strategy for your business.

01

ESTABLISH YOUR OBJECTIVE

To ensure successful social media strategy, you must first define your objectives clearly. Writing down your objective is one of the first things you should do to jump start your social media campaign. Make sure that they are specific, precise and measurable.

02

KNOW YOUR AUDIENCE

You need to understand and know your target audience, you must identify your users' needs and what they want to ensure a successful social media strategy.

03

IDENTIFY WHICH SOCIAL PLATFORM IS RIGHT FOR YOUR BUSINESS

With a clear objective and understanding of your audience, matching that knowledge to the right platform is crucial to your businesses success. Social media profiles are a great way to connect to your prospects and customers but not all of them can be a great fit for your business. Make sure to know which platform will allow you to maximize your brand reach on social media, engage with the right people, and achieve your social media goals.

04

HAVE A SOCIAL MEDIA CALENDAR

Scheduling your post is very important. Having a well-organized social media calendar will help keep your users engaged with you. Having a Social Media calendar will help you know what works and improve on your social media platform.

05

TAKE ADVANTAGE OF THE ANALYTICS

Use the built in analytics of the social media platforms to your advantage, this will help you know what works for your audience and each platforms. By doing this you will help explore how users want to engage with your company page.

06

ANALYZE YOUR FOLLOW GROWTH

As you post and grow the number of your engagements, your followers must also increase. If you don't see any progress, you need to experiment on something new with your content.

07

TAKE ADVANTAGE OF AD TARGETING

Social media continues to become a more crowded space, this will make it more difficult for most businesses to grab the attention of your customers. You can solve this problem with ad targeting, social media platforms like Facebook, Twitter and Instagram became better at understanding who your ideal customers are and will help you target your audience.

BUSINESS GUIDES: GOVERNMENT PROCESSES

REGISTER YOUR BUSINESS IN THE BUREAU OF INTERNAL REVENUE (BIR)

1 PREPARE THE REQUIREMENTS

- DTI Certificate of Registration
- Barangay Business Clearance
- Mayor's Permit
- Certificate of Lease (if the place is rented) or Certificate of Land Title (if owned)
- Government-issued identification (Passport, Driver's License, Birth Certificate, etc.)

2 FILL UP THE BIR FORM 1901. (ACCOMPLISH 3 COPIES OF THE BIR FORM 1901.)

3 GO TO YOUR RESPECTIVE REVENUE DISTRICT OFFICE (RDO).

The RDO is where your business is located and has jurisdiction over you. This is where you submit your application.

4 PAY THE REGISTRATION FEE.

Registration fee is Php 500 and Php 30 for loose DST or Proof of Payment of Annual Registration Fee (ARF). You can pay the registration fee in BIR accredited banks. Accredited banks will provide you a BIR payment form. Submit this to the bank together with your Documentary Stamp Tax on Lease. After payment, submit to your RDO a photocopy of your BIR form payments and other documentary requirements.

5 CLAIM YOUR CERTIFICATE OF REGISTRATION (COR).

Upon claiming your COR, ensure that you will also receive the "Ask for Receipt" sign.

6 PURCHASE AND REGISTER YOUR BOOKS OF ACCOUNT.

A book of account is where you keep the original record of all your business transactions. There are 3 types of books of account:

- Manual Books of Account: This includes journals, ledgers, or columnar books where you manually document (handwrite) your business transactions.
- Loose-leaf Books of Account: This also includes journals and ledgers but they are printed instead of being handwritten. Bookkeeping through Microsoft Excel (spreadsheets) can be considered as a loose-leaf book of account as well.
- Computerized Books of Account: A program or computerized system of bookkeeping that is usually common for businesses with complex operations.

(Register your books of account by accomplishing and submitting BIR Form 1905 together with your books of account at the RDO where your business is registered.)

4 SECURE AN AUTHORITY TO PRINT (ATP).

BIR requires businesses to have Authority to Print receipts (for businesses offering services) or commercial invoices (for businesses selling goods). Accomplish and submit 3 copies of BIR Form 1906 at the RDO, together with a sample of principal or supplementary invoices and a copy of your COR. It would usually take a week before you can get your ATP.

SEARCH ENGINE OPTIMIZATION (SEO) BASICS

This guide will prepare you and your business. Most of us would have likely heard of SEO. If you haven't, you can easily look into Google and get tons of results for its definition alone. But for our common understanding, SEO stands for Search Engine Optimization, which is the practice of increasing the quantity and quality of traffic to your website through organic search engine results. It might still sound a bit complex, but it's quite simple - or at least the basics are. Your business just needs to be searchable and relevant to your target market. This guide will prep you and your business about SEOs.

1. LEARN WHAT YOUR CUSTOMERS ARE ACTUALLY SEARCHING FOR

Nowadays, customers most of the time search for the products and look it up in the internet before they actually make a purchase. So you have to think like your customer. Think about what your customers might be searching for and write your ideas down in a notepad. If you have the chance, you can even ask them directly. These information will be handy in choosing the right keywords you can use for your SEO.

2. UNDERSTAND YOUR COMPETITION

Search for the most important products and services you offer and note the most prominent websites in the search results. Remember, knowing how the competition works gives you an advantage on how you should work on your strategies too.

3. PLAN YOUR SITE

While understanding what consumers want and the keywords they use to find those products and services, identify pages on your website that can address those search queries.

4. OPTIMIZE YOUR SITE

A mobile-friendly site is important for two reasons. First, according to Google, more than half of searches come from smartphones. Second, Google now ranks all organic search results for desktop and mobile devices based on a site's mobile experience, including page speed.

5. PRODUCE REGULAR AND QUALITY CONTENT

Regularly publishing your own, high quality content is the way to make sure that you can strategically use SEO to your advantage. This will help you compete with other brands from the same industry. Plus, quality content provides great user experience making them come back for more.

6. BUILD YOUR SOCIAL MEDIA NETWORK

Social media enables you to connect with your customers and offers an audience for your content. Let's face it, social media helps build authority to your business. Search engines like Google give a lot of weight to a website's credibility, making it a vital SEO factor to look into. In the eyes of search engines, if your page or domain has high value, it has high authority and a better chance to rank above other sites with not-so-strong influence.

7. UNDERSTAND GOOGLE ANALYTICS

Analytics in Digital Marketing is similar to financial reports in businesses and both are essential to track performance. Google Analytics contains valuable data that you can use to monitor (and improve) the search performance of your business. What's even best? The Google Analytics tool is absolutely FREE to use.

YELLOW PAGES QUICKLIST

The Yellow Page Quicklist is where you can find business product and service names arranged in alphabetical order in just a minute of one's time. It is advisable to use it if he/she is familiar with the name of the business he/she is looking for.
