PUBLISHER'S MESSAGE

Dear Readers,

We are thrilled to present to you this year's edition of our Yellow Pages Business Directory, which goes above and beyond its traditional role of merely providing contact information for businesses. Our goal for this edition was to create a business directory that serves as a more versatile tool, enabling you to make the most of its contents and utilize it in tangible and practical way that can be helpful to you as you try and match yourself with the right businesses to work with.

We understand that in today's fast-paced digital age, there is definitely no shortage of information. But we realized that finding information is just the beginning. We believe that a well-designed business directory is more than just information. It should be more than just a static list of business names and numbers. It should be a valuable resource that empowers you to be more knowledgeable about the businesses and what they offer so that you can navigate the Philippine business landscape with more ease and efficiency.

In this year's edition, you will discover new features that transform the business directory into a true companion for a variety of your needs, whether it be for personal or business purposes. We have carefully curated content that goes beyond basic contact information, providing partner businesses with more comprehensive information on that business's offerings, specialties, and unique value propositions. We've also incorporated practical tools that allow you to canvas businesses better and utilize the directory in ways that benefit you or your business directly. Here are just a few examples:

1. Business Showcase Pages: We have included detailed information and product catalogs for a number of our business partners. This would allow you to learn more about the business, their products and services, and their purpose for serving customers such as yourself. We hope this allows you to make more informed decisions as you look for a partner to work with.

2. Industry Trends and Statistics: Stay up-to-date with the latest industry trends and statistics provided within the directory. Gain valuable insights into market dynamics, customer preferences, and emerging opportunities. This knowledge will empower you to make informed decisions and stay ahead of the competition.

3. Project & Notes Pages: We want the directory to not just be a static object, rather something you can interact with and enhance your experience as you canvass for businesses. We want the directory to also be your partner as you plan for projects, or list down potential businesses prior to making your decisions.

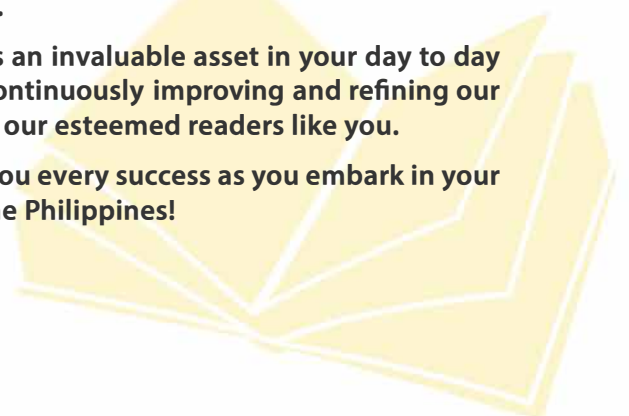

We have exerted a lot of effort into this year's Yellow Pages in a way that we hope truly serves you as your indispensable business companion. Our aim is to provide you with a powerful tool that not only connects you with the right people but also equips you with the knowledge and resources needed to maximize your business potential.

We hope that this edition of the Yellow Pages becomes an invaluable asset in your day to day persona and business lives. We remain committed to continuously improving and refining our offerings, ensuring that we deliver the utmost value to our esteemed readers like you.

Thank you for your unwavering support, and we wish you every success as you embark in your journey to discovery and connect with businesses in the Philippines!

Sincerely,

Ricardo D. Bautista

ABOUT THE COVER

Directories Philippines Corporation has also always been a passionate supporter of Philippine visual arts. This year, the directory's cover celebrates the comics medium, an art form wherein Filipinos have excelled in both here and abroad. These visually engaging pieces of sequential art highlight not only the directory's latest innovations such as its Business Showcase, customizable Projects and Notes pages, and Business and Government Requirements Guides, but they also bring to life the human stories of productivity and success enabled by these new and established features. Featuring the works of similarly new and established comic illustrators such as Patricia "Patmai" De Vera, Ara Villena, Toni Tanabe, and Ed Tadeo, this year's cover expresses how the Yellow Pages has evolved to not only be useful for businesses looking to grow and customers looking for the best deals, but to also be fun and entertaining to use.

Blogging is one secret weapon business owners can use as an added feature to their websites. It can be used to heighten brand visibility not only in social media but in search engines as well. When used properly, a blog section of a business website can be a powerful tool to make a site stand out from the competition. Here are some benefits a business website can get with a blog feature.

Business Guide:

Why Business Websites Need a Blog

Blogs Focus on What Customers Care About

Blogs are focused on creating content featuring topics that the business' target market cares about. The blog posts or articles may not feature the business or its offerings directly, but instead talk about topics potential customers may find interesting. This is why it's important to have both sections present in a business website as they fulfill different needs.

Blogs Keeps a Site Active and Optimized for SEO

Since there is no limit to the number of topics that are related to a business, there is practically a wide range of topics to be covered. Blogs can be updated daily or even more frequently if you put enough effort into finding new topics for your content. Having a section of the website that is constantly updated will help make a site rank higher in search engines since they tend to prioritize websites that are regularly updated and with newer content.

Blogs Bring Both Awareness and Conversion

Social media posts and content might be better at getting attention and creating awareness among all the other platforms, converting views or engagement into leads or sales can be a challenge. Their content do not ask the viewer to go beyond the platform plus most people have created a habit of just scrolling past social media posts once they have seen it. Websites are often better at conversion as they can lead a viewer through various sections, each engaging the viewer on different stages of their decision-making process.

Whatever the business size, having the opportunity to directly communicate with your customers that express interest in your offerings is vital to your success. The digital space can be a highly competitive arena and can be tough when you cannot keep up with the demands online. That is why it is important for business owners to understand how E-Commerce affects your business. Here are some best practices to help you increase conversions for your ecommerce store.

Business Guide:

Best Practices for an e-Commerce Website

Upload quality photos and videos

It is a fact that humans are visual creatures. With well-curated, high quality images posted in your website, customers are more likely to be interested about your products and services. It will allow them to have confidence in your brand and consider you as a reliable source for their needs.

Simplify your menus and add a search bar

Put up just enough menus to choose from to avoid confusing your audience. You can use broad terminologies to categorize your product lists and with a search bar, customers will have an easy time to find what they are looking for. These things can make your customer's visit to your website as smoothly as possible.

Have multiple ways to connect with your business

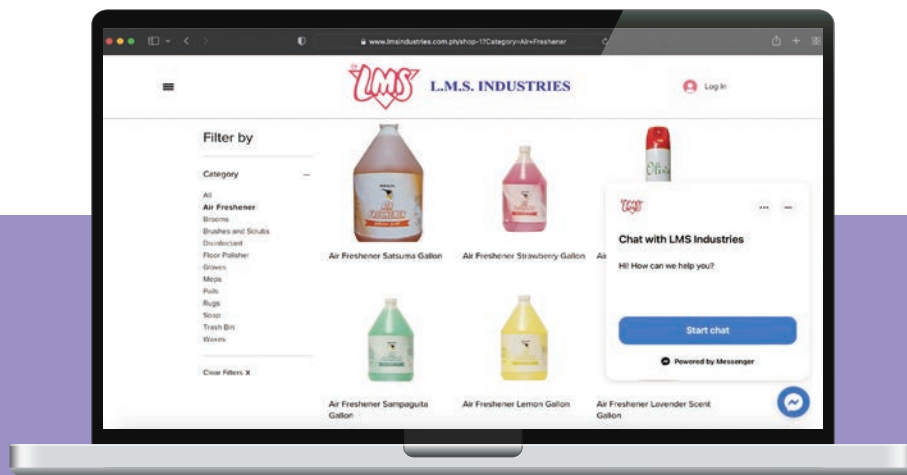

Customers appreciate getting the attention that they need when they reach out to a business for an inquiry. The best way to show this is making available variety of ways for them to connect and communicate with you. A complete contact page with your e-mail, phone number, social media profile links and live chat are must-haves in your e-commerce website.

Accept as many payment options as possible

Any ecommerce website must have alternative payment options available. Do not give your customers an opportunity to not proceed with their purchase just because their preferred payment option is not available in your website. Take advantage of that edge, an increase in sales conversion and improved customer confidence by eliminating limited payment options.

Feature Customer Reviews and Testimonial

Another way to boost credibility to your brand is by posting reviews and testimonials of your actual customers. These feedbacks, whether good or bad will allow you to identify your strengths and areas that you need to improve on. It can also influence a consumer's decision to complete a transaction and the way you manage these reviews will encourage other people to support your business even more.

Social Media has become a necessary part of any business marketing strategy. It allows businesses to connect and interact with its customers. Other than providing information, using social media can influence them with their purchase decision making.

Here are some guide questions you can ask yourself when you are creating a social marketing strategy for your business.

Business Guide: Social Media Marketing Tips

What is your objective?

Before you can execute a successful social media campaign, it is best that you have identified and established what your objectives are. It has to be specific, precise and measurable.

Who are your target audience?

When you know and understand who your target audience are, you will be able to craft relevant contents that are attuned to what your follower's need and want.

Which Social Platform is best for your Brand?

There are way too many social media platforms to choose from - Facebook, Instagram, YouTube, Tiktok to name a few. Choose and focus your time with the one that can engage with the right people and is aligned to help you achieve your social media goals.

What topics can you post?

The key for customer engagement is to post interesting topics that your audience can relate with. You can post product photos, branded graphics, on-going promotions, blog posts, and a lot more. It is also important to use a social media calendar that can help you keep track of what content type works and improve your customer reach and engagement.

How do I know my follow growth?

As you post and grow the number of engagements for your page, your number of followers should also show a significant increase. If you do not see that much progress, it is important to experiment on different strategies that can stir the interest of your target audience. Always make sure that they have something new to look forward to with your content.

With everyone going digital, having a website is a must for any business. The way how your website communicates with your target audience is a crucial part. Remember, a good website will reflect who you are and will play a key role in your digital marketing strategy. Here are the recommended features to keep in mind when designing your website.

Business Guide: Social Media Marketing Tips

Your Brand Story

Customers tend to support businesses who they can relate to. The more that your brand content can emotionally connect with your audience, there is a higher chance for them to choose you over competition.

Products or Services

Your website should be able to speak to your audience the moment they landed on your site. More than the aesthetics, it is a must to make your customers able to immediately identify what your brand can do for them with just a few clicks. Never give your customers an opportunity to get lost in your website and find what they need elsewhere.

Responsive Design

Always take into consideration that customers use a variety of devices to access the web and most of the times thru their mobile phones. Ensure that your design is adaptive to any device and its parts will not be all over the place. Having a user-centered design will definitely improve the quality of the user's interaction and perceptions about your brand, your products and any related services.

Social Media Icons

Your available social media handles or links should be part of your business website. Your social media icons should be on every page of your website - either in the header or footer. Having them at the right place will invite visitors to be engaged to more of your contents in various platforms.

An FAQ Page

Your FAQ page will be your organized collection of commonly asked questions about your products and services. This quick information reference will guide your customers in making a purchasing decision even without them needing to contact your business.

Tools to Engage & Interact with Users

Tools such as live chat, contact us form and subscription form will give your customers a means to get in touch with you for questions or product inquiries. Customers will be more confident doing business with a brand that can attend to their concerns. Not only it will make your customers happier, but it can also have a direct positive impact with your revenue.

MAPECON PHILIPPINES INC.

MAPECON is the country's biggest and leader in pest control services. Started in January 1961 by founder Gonzalo O. Catan Jr. He started proposing free trial services to customers. He provides very competitive service offerings to get rid of all insects, rats, and other pests. Through the great results of his service, many were impressed and started getting MAPECON's services.

MAPECON HISTORY

Gonzalo Jun O. Catan Jr. started the Manila Pest Control in January 1961. He started by proposing free trial services for one month to customers. He then bought a sprayer and duster on terms. He worked mostly at night, starting at about four in the morning. In those days, established companies provided services for the control of just a few insects while he offered a complete service to get rid of all insects, rats, and other pests.

After a month of trials, he signed with four customers who were impressed with the results of his services the Manila Hotel, the Manila Times Publishing Company, the Jai-Alai Building, and the Safari Restaurant. With 60 percent of the payments he received as profit, he was able to resign from his job and concentrate on building the company.

By 1962, Mapecon had 300 customers and 19 employees. Mr. Catan continued to attract clients by giving free demonstrations of his services. He was then able to sign a chain of theaters, a shipping line, and more than 20 restaurants.

Today, Mapecon has grown from a single proprietorship entity to a multi-million-peso corporation with approximately 700 employees nationwide. It has numerous branches all over the country including the provinces of Cebu, Bacolod, Cagayan de Oro, Zamboanga, Davao, Legaspi, Baguio, Palawan, and many others. The company now also operates in some areas in California USA.
