# Publisher's Message

Dear Readers,

We are happy to present to you this year's edition of the Metro Manila Yellow Pages Business Directory. The team worked tirelessly to ensure that this year's Yellow Pages continues to be the tried and tested reliable and indispensable resource for local businesses and the community. Our mission is still to strive to be a crucial partner and tool that creates productive connections between business and customers. We remain dedicated to upholding this legacy for years to come.

We understand that in today's fast-paced digital empowered world, there is easy access to an abundance of information and choices right at our fingertips. But while this may seem like a gift, we know that at times it can come with its fair share of challenges as well. Challenges such as being too easily overwhelmed and overloaded with the sheer amount of data and options being shared and given to you.

This is why we designed the Yellow Pages to provide a streamlined and straightforward way to do the one thing it is meant to do: connect people with businesses. It is meant to cut through the cluttered world of data we live in and provide a clear, concise, and user-friendly guide to help you find what you're looking for. We believe in the power of organization and simplicity and our directory stands as a testament to this belief time and time again.

Our directory is here to help you find exactly what you need, when you need it. Whether you're looking for a specific business or hoping to discover new business-types or emerging industries, each listing has been meticulously checked to ensure its accuracy, providing you with trustworthy details that you can use. We've carefully curated and categorized each business to enhance your browsing and canvassing experience, to ensure you can find the businesses, services, and products you need with ease.

Yes, we are committed to evolving with the times, but we are also committed to preserving the integrity and reliability of the platform we have built through the years. Our goal is to bridge the gap between tradition and innovation, offering a resource that is both timeless and modern.

Thank you for your unwavering support and for recognizing the value that our directory brings to your everyday life. We are honored to serve you and look forward to continuing this journey together.

Sincerely,

**Ricardo D. Bautista**  
DPC President

# About The Cover

This year's cover was a result of the collaborative efforts of the talented internal team of DPC. Through the combined knowledge, skills, and experience of both our young and our tenured team members, we were able to come up with a unique interpretation of a modern yet timeliness illustration of what the Yellow Pages business directory provides to the customers and business of today. The idea revolves around the core benefit of the Yellow Pages, which is to provide direction and guidance to individuals to find and discover the right business. This is why we opted to showcase an individual as he is immersed in a digital online map, as he searches and browses through the options and location pins being presented to him. It is meant to dramatize how even with the online tools we have on-hand, the human interaction and involvement continues to be crucial and intertwined in the tools that we use. This is how we view the Yellow Pages, on how we continue to be involved and intertwined with the connection and relationships of the customers and businesses that use our platform. As the Yellow Pages also evolves and expands its online and offline platforms, we strive to continue to provide the core direction and benefits to users that are highly involved in their search and discovery of businesses that will help them achieve their success. We hope the message of the cover can continue to inspire creating these productive human connections, as well as clarity on how and why this book can give it them.

# Leveraging AI to Enhance Workplace Productivity: A Modern Approach

**I**n today's rapidly evolving digital landscape, Artificial Intelligence (AI) has emerged as a cornerstone technology, driving efficiency and innovation across various sectors. Its application in workplace has opened new vistas for enhancing productivity, fostering a culture of efficiency and growth. This article explores how AI can be strategically deployed to augment workplace productivity, transforming challenges into opportunities for businesses seeking to stay ahead in the digital era.

While the benefits of AI in enhancing workplace productivity are evident, businesses must navigate challenges such as data privacy concerns, the need for employee upskilling, and ensuring ethical AI use. It's crucial for companies to address these challenges proactively, fostering an environment where technology complements human talent, guided by principles of ethical use and inclusivity.

AI's role in increasing workplace productivity is undeniable and growing. By automating routine tasks, enhancing decision-making, improving communication, personalizing learning, and streamlining HR processes, AI technologies are setting new benchmarks for efficiency and innovation. As businesses continue to navigate the digital transformation, embracing AI becomes not just an option but a necessity for staying competitive and ready for the future. The journey towards an AI-enhanced workplace is an ongoing process, one that promises to redefine productivity and work culture in the digital age.

## What Can AI Do?

### Automating Routine Tasks

One of the most immediate impacts of AI on workplace productivity is its ability to automate routine and time-consuming tasks. From data entry and analysis to scheduling meetings and managing emails, AI-driven solutions can handle these tasks with unparalleled speed and accuracy. This automation not only frees up valuable time for employees to focus on more strategic creative tasks but also reduces the risk of human error, ensuring a higher quality of work.

### Enhancing Decision Making

AI technologies, especially those involving machine learning and data analytics, are remarkably effective in processing vast amounts of data to glean insights and predict trends. By equipping decision-makers with data-driven insights, AI helps in making informed decisions quickly, significantly reducing the time typically spent on data analysis. This capability is crucial for businesses aiming to respond swiftly to market changes and maintain a competitive edge.

### Improving Communication

AI-powered communication tools are revolutionizing the way teams interact and collaborate. Chatbots and virtual assistants can facilitate smoother communication, provide instant access to information, and support 24/7. Moreover, natural language processing (NLP) technologies enable these AI systems to understand and respond to human language with high accuracy, enhancing internal communications and customer service operations.

### Fostering Personalized Learning

The personalization capabilities of AI extend to employee training and development, where it can tailor learning paths according to an individual's skills, learning pace, and performance. This personalized approach ensures that employees are more engaged in their learning, leading to better retention of information and a more skilled workforce. Moreover, AI can identify skill gaps and recommend training, helping employees stay relevant in their roles and industries.

# THE FUTURE OF SEARCH & INTERNET: UNLEASHING THE POWER OF AI

Artificial Intelligence (AI) is transforming search engines and the internet, revolutionizing how we find information and interact online. Let us explore the various ways that we feel that AI will start to change the fundamental way we search, interact with data, and use the internet. Below are some key points we think we should consider.

## 1. The Evolution of Search Engines with AI

Artificial Intelligence (AI) is transforming search engines and the internet, revolutionizing how we find information and interact online. This article explores AI's untapped potential and its impact on users, businesses, and society.

## 2. AI and Search Engine Optimization (SEO)

AI has significantly changed SEO. Modern algorithms consider user engagement, website speed, and mobile-friendliness, shifting focus towards high-quality, user-centric content. SEO professionals must adapt to these changes to improve search rankings.

## 3. Natural Language Processing (NLP) in Search

NLP helps search engines understand and respond to queries by analyzing context, intent, and sentiment. Technologies like voice search and virtual assistants (e.g., Siri, Alexa) rely on NLP for better accuracy and relevance.

## 4. AI-Driven Personalization

AI enhances user experience by analyzing behavior and preferences to deliver personalized content and recommendations. This personalization builds long-term relationships.

## 5. Voice Search and Virtual Assistants

Voice search and virtual assistants are reshaping search habits. AI-powered devices provide instant answers and perform tasks using voice commands, prompting businesses to optimize voice search.

## 6. AI-Powered Chatbots

Chatbots use AI to offer instant, human-like assistance on websites, improving customer service and reducing support team workload. As AI advances, chatbots will provide more personalized recommendations and resolve complex issues.

## 7. Ethical Implications of AI

AI in search raises ethical concerns, including algorithmic bias, privacy, and data security. Ensuring fairness, transparency, and accountability in AI systems is essential to maintain user trust.

## 8. AI in Content Creation and Curation

AI can generate and curate content based on data analysis, automating tasks like writing news articles and making personalized content recommendations, enhancing user experience.

### Future Predictions

*AI will continue to refine search accuracy, personalization, voice search, and chatbot sophistication. Addressing ethical concerns is crucial as AI technology advances.*

*AI has revolutionized search and the internet, offering more accurate results and personalized experiences. Embracing AI responsibly can unlock its full potential, creating a smarter, more efficient digital future.*

# Explore the Power of AI: Beneficial Platforms for Your Business

Artificial Intelligence (AI) is revolutionizing the way businesses operate, enabling them to automate tasks, analyze data, and provide personalized customer experiences. Many companies are tapping into the potential of AI to gain a competitive edge and drive innovation in their industries. Whether you are looking to streamline your processes, enhance customer interactions, or gain deeper insights from your data, there are several popular AI platforms that can help propel your business to new heights.

In conclusion, AI has the potential to transform businesses across various industries, and the availability of these popular AI platforms makes it more accessible than ever. Whether you are a small startup or a large enterprise, embracing AI can open new possibilities and pave the way for future success in the digital age.

These popular AI platforms offer a wealth of capabilities that businesses can leverage to drive innovation, improve operational efficiency, and deliver more personalized experiences to their customers. By integrating AI into their workflows and applications, businesses can gain a competitive edge and unlock new opportunities for growth.

## Examples of AI Tools

### ChatGPT

**ChatGPT:** Developed by OpenAI, has revolutionized the way businesses interact with their customers. This conversational AI can handle customer service inquiries, generate content, and even code, making it a versatile tool for a variety of applications. This is best for businesses looking to automate customer support, content creation, and even some aspects of software development.

**Amazon Web Services (AWS):** AWS offers a comprehensive set of AI and machine learning services that empower businesses to build, train, and deploy machine learning models at scale. With tools like Amazon SageMaker, Amazon Rekognition, and Amazon Comprehend, businesses can harness the power of AI to gain valuable insights from their data, automate document analysis, and create custom machine learning models.

**Google Cloud AI** provides a wide range of AI and machine learning tools, allowing businesses to leverage Google's expertise in AI to solve complex problems. From vision and language APIs to AI platform for building and deploying machine learning models, Google Cloud AI enables businesses to infuse AI into their applications and workflows with ease.

**Microsoft Azure AI:** Microsoft Azure offers a suite of AI services that help businesses build, deploy, and manage AI solutions at scale. With offerings such as Azure Machine Learning, Azure Cognitive Services, and Azure Bot Service, businesses can harness the power of AI to improve decision-making, automate repetitive tasks, and deliver more personalized customer experiences.

**IBM Watson:** IBM Watson is a powerful AI platform that enables businesses to unlock the value of their data and drive innovation. With capabilities in natural language processing, computer vision, and predictive analytics, IBM Watson helps businesses build AI-powered applications and solutions that can transform industries and drive business growth.

**Salesforce Einstein:** Salesforce Einstein brings the power of AI to customer relationship management (CRM), allowing businesses to leverage AI to make smarter decisions, personalize customer experiences, and automate tasks. With features like predictive lead scoring, personalized marketing, and intelligent chatbots, Salesforce Einstein empowers businesses to drive meaningful interactions and build lasting customer relationships.

# Short-Form Videos and Live Streaming for E-Commerce: A Game-Changer in the Digital Retail Landscape

In today's fast-paced e-commerce world, staying updated with the latest trends and technologies is essential. One major trend is the use of short-form videos and live streaming to promote and sell products. This approach has transformed how businesses engage with their audience, making a significant impact on digital retail.

Short-form videos, ranging from a few seconds to a couple of minutes, are popular on social media platforms. Brands use these videos to grab attention and showcase products in an engaging way. By presenting information quickly and entertainingly, businesses can effectively convey their brand value and product features.

Live streaming enhances this by enabling real-time interaction with the audience. Through live Q&A sessions, product launches, and demonstrations, brands create an immersive shopping experience. This builds trust, encourages engagement, and increases sales by allowing customers to ask questions and receive immediate responses.

These formats humanize the shopping experience, showing the faces and stories behind a brand, which builds emotional connections and brand loyalty. Additionally, businesses can leverage user-generated content, encouraging customers to share their own videos or participate in live streams, thereby expanding the brand's reach through social proof.

The rise of social commerce has further boosted the value of short-form videos and live streaming. Platforms like Instagram Reels, TikTok, and Facebook Live integrate with online shopping features, allowing users to purchase directly from videos or live streams. This seamless shopping experience drives impulse buys and simplifies the purchasing process.

In summary, short-form videos and live streaming have revolutionized e-commerce. By adopting these formats, businesses can create engaging content, build authentic connections, and drive sales, making them essential tools in the digital retail landscape.

## Government Guides: GOVERNMENT BENEFITS WE SHOULD KNOW ABOUT

**Businesses, whether big or small, need to be familiar with the different government agencies that require mandatory contributions from both employers and employees through salary deductions, as specified in the Philippine Labor Code. Here are the government agencies and the corresponding benefits you can avail of.**

**1**

### **SOCIAL SECURITY SYSTEM (SSS)**

## Government Guides:

# HOW TO APPLY FOR A MAYOR'S PERMIT IN THE PHILIPPINES (Office of the Mayor - City Hall)

## 1 APPLICATION AND SUBMISSION OF REQUIREMENTS

Go to the Business Permit and Licensing Office (BPLO) in your city and fill out the application form and submit for verification.

## 2 CITY ENGINEERING OFFICE

Go to Engineering Department to get the assessment for building fee. You will have to submit building and occupancy permit.

## 3 ELECTRICAL DEPARTMENT

Proceed to the Electrical Department to get a Certificate of Electrical Inspection. One of the Engineers will come and visit your place to inspect the area. If there is no problem, they will approve your application and will be given a certificate.

## 4 SANITARY OFFICE

You will then proceed to the Health and Sanitary Office to secure a Health and Sanitary Permit.

## 5 BUREAU OF FIRE PROTECTION

Next is the Bureau of Fire Protection to secure a Fire Protection Permit. All business establishments are required to have a fire extinguisher and the number of extinguishers depends on the floor area of the establishment. The BFP will need to inspect your place before they sign your papers, they will also not sign your documents without the zoning clearance.

## 6 ZONING CLEARANCE

Go to the Office of the Municipal Planning and Development Coordinator to get a zoning clearance. You will also be asked to submit more requirements, it will be assessed and verified.

## 7 GO BACK TO BUREAU OF FIRE PROTECTION

The BFP will now sign your Fire Protection Permit once you have a zoning clearance.

## 8 GO BACK TO BUSINESS PERMIT AND LICENSING OFFICE (BPLO)

Go back to the BPLO to show that you have already completed the process. They may verify it again to make sure that everything is in order and you will be asked to pay the following:

- Your Business (Contractor/ Services/ Wholesaler/ Retailer)
- Mayor's Permit Fee
- Sanitary Fee
- Service Fee
- Local Fire Inspection Fee
- Business Plate

**\*BUSINESS PLATE WILL BE RELEASED WITHIN 1-3 DAYS**

## Government Guides:

# REGISTERING YOUR BUSINESS IN THE BUREAU OF INTERNAL REVENUE (B.I.R.)

## 1 PREPARE THE REQUIREMENTS

- DTI Certificate of Registration
- Barangay Business Clearance
- Mayor's Permit
- Certificate of Lease (if the place is rented) or Certificate of Land Title (if owned)
- Government-issued identification (Passport, Driver's License, Birth Certificate, etc.)

## 2 FILL UP THE BIR FORM 1901. (ACCOMPLISH 3 COPIES)

## 3 GO TO YOUR RESPECTIVE REVENUE DISTRICT OFFICE (RDO)

The RDO is where your business is located and has jurisdiction over you. This is where you submit your application.

## 4 PAY THE REGISTRATION FEE

Registration fee is Php 500 and Php 30 for loose DST or Proof of Payment of Annual Registration Fee (ARF). You can pay the registration fee in BIR accredited banks. Accredited banks will provide you a BIR payment form. Submit this to the bank together with your Documentary Stamp Tax on Lease. After payment, submit to your RDO a photocopy of your BIR form payments and other documentary requirements.

## 5 CLAIM YOUR CERTIFICATE OF REGISTRATION (COR)

Upon claiming your COR, ensure that you will also receive the "Ask for Receipt" sign.

## 6 PURCHASE AND REGISTER YOUR BOOKS OF ACCOUNT

A book of account is where you keep the original record of all your business transactions. There are 3 types of books of account:

- Manual Books of Account: This includes journals, ledgers, or columnar books where you manually document (handwrite) your business transactions.
- Loose-leaf Books of Account: This also includes journals and ledgers but they are printed instead of being handwritten. Bookkeeping through Microsoft Excel (spreadsheets) can be considered as a loose-leaf book of account as well.
- Computerized Books of Account: A program or computerized system of bookkeeping that is usually common for businesses with complex operations.

(Register your books of account by accomplishing and submitting BIR Form 1905 together with your books of account at the RDO where your business is registered.)

## 7 SECURE AN AUTHORITY TO PRINT (ATP)

BIR requires businesses to have Authority to Print receipts (for businesses offering services) or commercial invoices (for businesses selling goods). Accomplish and submit 3 copies of BIR Form 1906 at the RDO, together with a sample of principal or supplementary invoices and a copy of your COR. It would usually take a week before you can get your ATP.

"MG" acronym for MESSER GRIESHEIM that derives from the surnames of two German industrialist families known as DR. HANS MESSER and HOECHST KNAPSACK-GRIESHEIM who together put companies in 3 areas, welding technology, cryogenic gases and industrial gases. In the field of welding technology Messer Griesheim put up the Messer Cutting & Welding which is known only then in Europe until such time that the name spread worldwide for its products' quality that has passed the test of time. Soon after MG special welding electrodes and filler materials also found its niche in the Philippine market through the collaboration of five entrepreneurs, thus:

The journey began August 1992 when five accomplished men dared to dream. Four young dynamic engineers and a successful accountant and business entrepreneur pool their talents and skills to pursue this dream. The vision: "To actively contribute to the national development by operating and managing a company that will serve the needs of both the government and private sectors in the line of modern welding technology".

And the birth of FERVID INTERNATIONAL PRODUCTS, INC. is the realization of this dream. Fervid was appointed Sole Distributor of Messer Greisheim Special Welding Alloys from U.S.A. and Germany. MG maintenance

# **DELTA STAR POWER MANUFACTURING CORP.**

specializes in the Manufacturing and Rehabilitation of Distribution and Power Transformers from 120/240V to 69000V, 3 to 20,000 KVA capacities. It's long and dedicated experience (established since September 1983) primarily in the field of electrical transformers is a confirmation to its trademark as "THE TRANSFORMER PEOPLE".

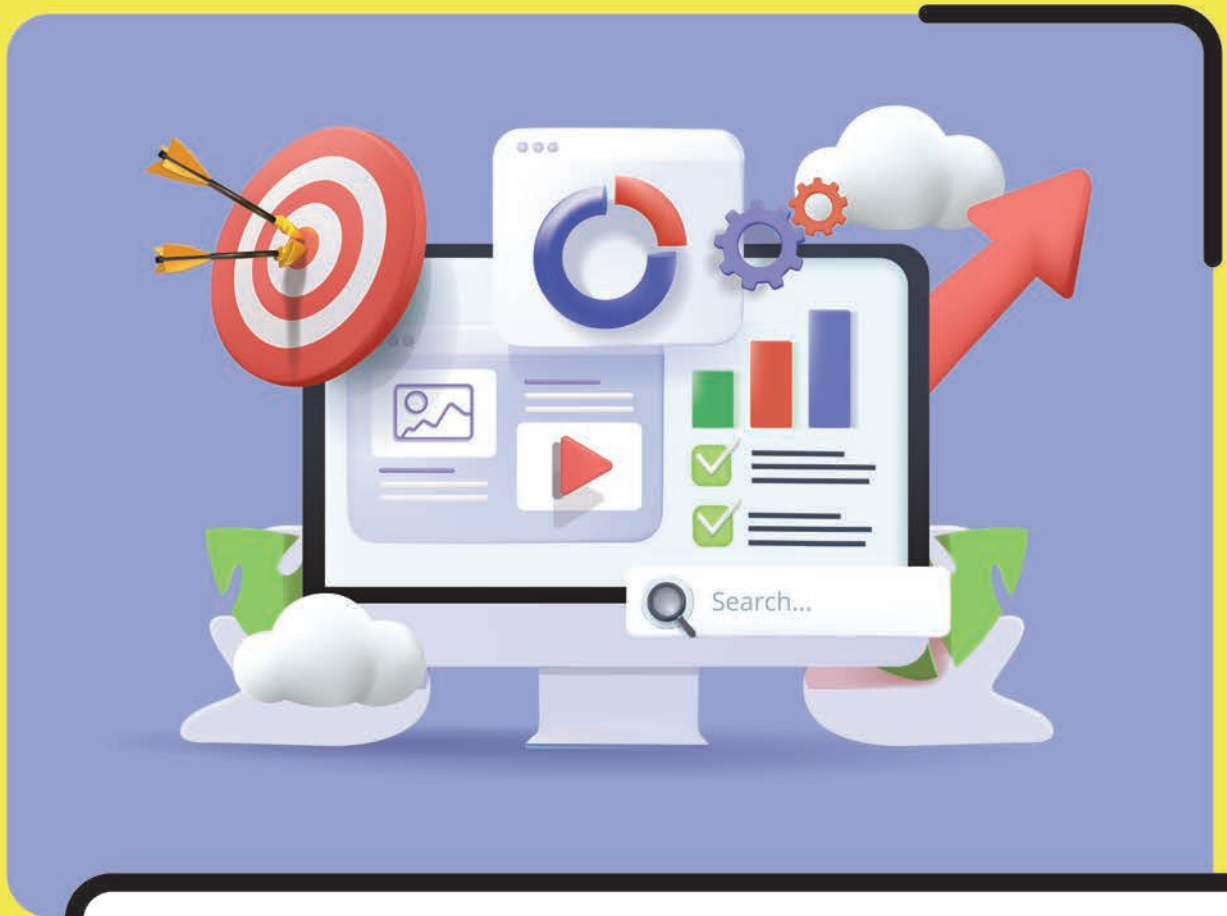

is a leading manufacturer and rehabilitator of distribution and power transformers. With years of experience in the industry, we have established ourselves as a reliable and trusted supplier of high-quality transformers to various industries such as energy, mining, and infrastructure. We specialize in the production and rehabilitation of both oil-immersed and dry-type transformers, ranging from small distribution transformers to large power transformers.

Our state-of-the-art manufacturing facility is equipped with the latest technology and equipment to produce high-quality transformers that meet the exact requirements of our clients. We use only the best quality materials and components in our manufacturing process to ensure that our transformers are durable, reliable, and have a long service life. Our team of experienced engineers and technicians are dedicated to ensuring that our products meet the highest standards of quality and performance.

In addition to manufacturing, we also offer rehabilitation services for transformers that are in need of repair or maintenance. Our expert team can diagnose and troubleshoot any transformer issues and provide customized solutions to improve its performance and extend its lifespan. We are committed to providing our clients with the best possible service and support, and we work closely with them to ensure that their transformer needs are met in a timely and cost-effective manner.
