ABOUT THE COVER

“DREAM TAPESTRY”

By: Bernice Michaela Cruz

“Dream Tapestry” by Bernice Michaela Cruz, a fine arts major at the University of Santo Tomas, highlights this year’s Metro Manila directory cover. The acrylic painting bested 29 other finalists to win the grand prize in the 33rd edition of the Visual Arts Competition (VAC 33), sponsored annually by Directories Philippines Corporation and the Philippine Long Distance Telephone Company (PLDT).

VAC 33 challenged young Filipino artists to wrap their imagination around the concept of legacy—something that is normally associated with an outgoing generation, as it prepares to hand over the reins of leadership or stewardship to the next generation.

The VAC 33 theme was framed as “Creating Legacy, Creating the Future” to inject the notion that one is never too young to think about legacy. In fact, today’s rapidly changing world is increasingly being driven by younger generations. Early on, therefore, one needs to be more aware of the impact that day-to-day life decisions—and the values he or she holds dear—will have on the future shape of society and the sustainability of the planet.

“To give and to receive, that is the essence of legacy,” writes Bernice to explain what inspired her painting. “Legacy is the fruits of a person’s endeavors, freely shared to all. Each one is a gift and contribution to the world, as it builds and cultivates upon it like every significant stitch on a tapestry. However, through learning what we have received from these gifts, it is our choice to understand what we have gained and to weave something out of it, starting a legacy of our own to share.”

Indeed, all of us have an unlimited capacity to dream. To do great things. Too often, we fail to realize that our diverse dreams converge and that, if we act on them and reinforce each other’s good works, we can make a wonderful tapestry of our world.

PUBLISHER'S MESSAGE

Since our incorporation on June 20, 1989, when we assumed the business of the Philippine Branch of GTE Directories of the United States, Directories Philippines Corporation (DPC) has always had a clear goal. We have always been steadfast and dedicated to our commitment to helping local Philippine businesses grow by allowing them to connect to people that matter to them. More than 30 years later, this mission has not changed and has not wavered.

Through our drive to fulfill this mission, our flagship product has become one of the most iconic products in history, the Yellow Pages (YP). This emerged and remains to be the dominant market leader in the directories advertising industry, with 17 provincial editions covering key urban and provincial centers across the country. An office, business establishment, or household would not be complete without a set of Yellow Pages sitting next to their telephone. For years, we continued to provide local businesses a venue and way to reach their customers, and in turn allowed everyday Filipinos with trusted, credible and useful information for whatever they may need.

But as the old saying goes, the only thing permanent in this world is change. The 2000s brought with it the rapid evolution of technology, and in turn, the rapid change in the way people behave, and ultimately, the way they do business. The internet, digital platforms, and social media forever changed the way we live our lives. While many saw this rapid evolution as something to fear, we at DPC saw it as an opportunity to serve our partner businesses and the Filipino people better.

The opportunity lied in the fact that while digital platforms and tools would change the way we lived our lives, the core values and needs that drive our actions would still remain fundamentally the same. Using this principle, we realized that as long as we continued to hold true to our goal in helping local businesses grow, the digital transformation would only serve to help us achieve that goal in more efficient and empowered manner.

This digital transformation has then allowed DPC to move beyond just being a printed book and has moved us into a business solutions company. With a suite of digital platforms and services, we have continued to find a variety of ways to help all sizes of business from small and medium enterprises to large corporations. All these products and services continue to support our main goal of connecting local businesses to those people that matter to them.

Our flagship product remains to be our Yellow Pages. Our printed book still contains the country's most number of verified and trusted businesses listings & information, and with its nationwide distribution, it is still one of the widest reaching products in the country. With the strength of the Yellow Pages lying in the database of trusted, verified and reliable businesses, we created even more ways for Filipinos to gain access to this. First is an electronic book (E-Book) version, that can be accessed and read on any computer, tablet or mobile device. Secondly, and more importantly, is the innovative step we took to not only place this database online, but to create a better online platform that would empower businesses and delight users.

Hence, a major overhaul of the yellow-pages.ph web platform to improve the value to our business partners and enhance the user experience. The first phase has focused on empowering our search engine to make it more flexible, intuitive and relevant. This has entailed going back to basics. We've re-designed the frontend look and features around new user search habits and desired results. At the same time, we've improved the backend for faster response time and cleaned up

the database to focus on relevance—while laying the groundwork for future phases of development.

The site overhaul has positioned YP as search curator and authority reference for reliable and trusted businesses. At the same time, new and relevant yellow-pages.ph display ads and search engine marketing (SEM) solutions give a YP Partners higher visibility among users with particular interest in its products and services. More than just offering ad space, we are redoubling our efforts to boost an ad's probability of showing up when a user types in a relevant search term.

Building on the equity we've earned from our efforts with the Yellow Pages platforms, and guided by the ever-changing needs of our partners and their customers, we have equipped ourselves with an array of digital solutions and tools. Working with innovative local programmers, and international Solutions as a Service (SaaS) developers, DPC works hard to identify needs of local businesses and match them with the right digital product or service.

The core of these services is our powerful web building platform. Through this, we can provide professionally designed and feature-rich websites for any type of business. Gone are the days when websites were just a means for gaining more web presence. Our websites are focused on findings ways for it to empower the way you can do business online. Through features such as e-commerce integration, online booking, and live chat functionalities, the goal is to make sure that wherever and whenever relevant connections can be made, we assure your business is there and able to capture and capitalize on it.

To support and supplement our web builder, we have expanded our digital media services. DPC has been a certified Google Partner agency for a number of years, and each year we grow our expertise and specialization in a variety of Google ads. Our services include end-to-end campaign set-up and management to assure we let our partners reach the right people at the right times. We provide monthly analytics support, with recommendation on how to further optimize all the ads that we run. Apart from Google, the team is also highly experienced in Social Media Marketing. Focusing on Facebook's ad platform, we can create, manage, and optimize a variety of campaigns and ads that can assure reach to people on Facebook, Facebook Messenger, and Instagram. The media team is agile and adaptable, allowing us to manage and optimize your campaigns regularly to assure you always get the best results.

To round-out of business solution support, we are in development to providing affordable 24/7 call center service support, customer relationship management (CRM) tools, time-keeping, payroll, and inventory support. All of this to fulfill our goal of providing a variety of ways to help our partner's businesses grow, and better serve their customers.

Through all of this, the goal remains to never waver from our commitment to helping our partners reach the people that matter to them. We are grateful to everyone that has allowed us to continue to serve them for all these years. While a lot has happened in the past 30 years, it honestly feels like we are only getting started. We look forward to continuously finding and exploring even more innovative and relevant ways to continue our mission to serve local businesses and the Filipino people.

Starting a Business

When putting up a business of your own, whether an online store or physical store, ensure that all your operations are validated and legal by undergoing the proper registrations.

Let this step-by-step guide walk you through the whole process in registering a sole-proprietorship.

01 Register your business with the DTI and obtain a Business Name Registration Certificate

Obtain Barangay/Municipality/Regional Clearance from the concerned local government where you will set up your office.

Requirements

- Business Name Registration Certificate
- Two valid IDs

Proof of address of business location (Note: If you will be operating from home, your home address will suffice)

02

03

Go to the mayor's office in order to secure a business permit in the municipal level.

Requirements

- Business Name Registration Certificate
- Map/sketch of location where your business will be located
- Two valid IDs
- Community tax certificate (in some cases)

Go to the Bureau of Internal Revenue (BIR) district office where your business will be located.

Requirements

- Business Name Registration Certificate
- Mayor's permit
- Barangay clearance

Book of Accounts, to be stamped by BIR (which can be purchased in office supplies stores)

Receipts and invoices from BIR accredited print shops, to be stamped by BIR

04

05

Obtain a Tax Identification Number (TIN).

Fill out an application form for a Certificate of Authority to Print Receipts and Invoices

06

07

Have your Book of Accounts, receipts, and invoices stamped by the BIR

08

Apply as a self-employed member of the Social Security System (this is compulsory for business owners in the Philippines).

Business Name Application 101

To apply for a business name, you may go directly to the nearest DTI office where your business will be located or do it through the online facility called **Web-Enabled Business Name Registration System (WEBNRS)** - <http://www.bnrs.dti.gov.ph>.

01

Choose a Business Name

- Think of at least three business names in case your first preference cannot be registered.

Ready an acceptable business name

- The root word or words of the name shall be considered. (e.g. "Island" instead of "Islander")
- The business name should describe the nature of the business.
- It should be comprised solely of any or all of the following:
- Letters, numerals, and punctuation marks that are part of the English and Filipino language.

Names which are not acceptable:

- Those which are or whose nature of business is illegal, offensive, scandalous, or contrary to propriety.
- Those which are identical or nearly resemble business names already registered

02

03

Search for a Business Name

- Use WEBNRS - an online search facility to find registered business names in the Philippines Search can be done by "Begins With" and "Contains".

Register your Business Name

- Secure a BTRCP Form no. 16 and complete all required information marked with an asterisk (*).

04

05

Submit Documentary Requirements

The list of documentary requirements to be submitted to the proper DTI Office where your business is located is indicated in the Transaction Reference Number (TRN). Check Acknowledgement found in the last page of the online application form. The TRN Acknowledgement form should be signed and submitted to DTI also.

Pay your Application

Payment of application fee can be made at the DTI office indicated in your Transaction Reference Number (TRN) acknowledgment form.

06

How to Apply for Taxpayer Identification Number (TIN)

Who needs to apply for a TIN?

Any person, whether natural or juridical, required under the authority of the Internal Revenue Code to make, render or file a return, statement or other documents, shall be supplied with or assigned a Taxpayer Identification Number (TIN) to be indicated in the return, statement or document to be filed with the Bureau of Internal Revenue, for his proper identification for tax purposes (Sec. 236 (i) of the Tax Code).

Engage in the RIGHT YP Platform

Print directory has 3 books – the Yellow Pages, the White Pages Government & Business listings book, and the Residential White Pages book.

Yellow Pages Directory (Metro Manila Business Directory) is complete with information on businesses, products and services nationwide. It makes it easier for ready buyers to find partners when they do an alphabetical search on a specific category. Ads allow partners to provide more information about their companies such as products and services, additional contact information as compared to a listing.

White Pages Directory (Metro Manila Telephone Directory) contains residential listings which includes emergency numbers, information pages, and alphabetical listings of residential PLDT subscribers and business listings. White Pages Directories also include national and local government listings.

Digital Yellow Pages PH has 3 platforms – website, mobile app, and e-book

yellow-pages.ph (YP-PH) is your go-to online directory when looking for local businesses, products and services. Ready buyers, who are looking for legitimate business partners for their various life events, can easily search through the YP-PH's robust business listings. Users can also log in to review, compare, and bookmark business pages that they have visited. The YP-PH also includes free listings of business all over the country.

The Yellow Pages PH Mobile App functions the same way as the web version, and has access to the same database of trusted and legitimate business listings. It is available in the App Store and Play Store for on-the-go ready buyers so that they can find local businesses or products and services through their mobile devices whenever, wherever, however.

Both online platforms have the trade and business names of the searched entity, address, and contact number/s. Depending on availability, a business page inside these platforms can also include a website, its products or services, and photos or videos. These platforms also offer features such as online appointment system and directions.

For users who want to use the book but do not have the liberty to bring it wherever, the Yellow Pages PH e-book is perfect for their offline needs. The search bar or the Contents section can also narrow down your searches for local businesses, products or services.
