Commonwealth Insurance Company (CIC) was established in 1935 by Don Andres Soriano, who also founded San Miguel Brewery. Computed to be in its 7th decade, CIC is one of the most experienced insurers in the Philippines. Surviving the challenges of time, its ownership has been transferred from various hands until the present professional group of enterprising investors took over on October 7, 1997. These investors were able to help Mario A. Nolasco, who eventually became the Chairman of the Board and concurrently the Chief Executive Officer and President of Commonwealth Insurance Company.

CHEMICAL

Hypo Laboratories, Co., Inc. offers its major products line: Hypo Natural Spices and Seasoning Powder II (used for soups, stews, noodles, meat, sauce, baked goods, meats and other products in the food industry).
Hypo Natural Spices are sourced from selected places in the Philippines, and other foreign countries.
Through the years, Hypo Laboratories, Co., Inc. endeavored to continue to develop flavors and seasonings that satisfy your delicate and exacting taste.

MANUFACTURING

RAW
GOODS
QUALITY
PROCESS

The company has its humble beginning when it started as a small trading business related to dried fish and other fishery products. The freshly dried, affordable and high quality dried fish made it possible for the founder, Esmail U. Tan and his wife, Linda Y. Tan, to supply the products to wholesalers, retailers and household consumers nationwide.

ABOUT THE COVER

The Yellow Pages has always been about providing choices. There are thousands of verified businesses listed and hundreds of categories within its pages. But more than simple quantity, the Yellow Pages offers diversity as well. There are categories that include businesses that appeal to a wide variety of customers as well as categories that fulfill a specific need of a specialized market. To highlight this, the 2022-2023 directory expands its showcase of diverse industries beyond its pages and into its cover. Even before opening the directory, choice businesses from industries that have been well-served by the Yellow Pages are already highlighted for ready buyers to check out. Like a store display presenting a wide and colorful variety of wares, the Yellow Pages directory cover gives readers the feeling of exploration and discovery one experiences when window shopping at a high class store. As always, the choice of the trusted partners you want to work with and patronize are at your fingertips thanks to the Yellow Pages.

PUBLISHER'S MESSAGE

For decades, the answer to the question "What is a directory?" was straightforward. It was a book or collection of directions, rules, or ordinances. The Merriam-Webster dictionary still defines it this way. For most people, it was a book like the telephone directory which listed the phone numbers of people living in a certain area. Later on, it expanded to include businesses that operated in a particular area as well.

As technology progressed and we entered the computer age, programmers had to find ways to explain complex new concepts to users by comparing them to more familiar objects from daily life. This is the concept of skeuomorphism. It makes something easier and quicker to understand by borrowing elements from something already familiar. So to explain the concept of the catalogue structure that computers use to organize their file systems, they used the term "directory". People were familiar and comfortable with the idea of directories, so computers borrowed the term, expanding the word to mean more. Now, more people probably interact with directories in computers and mobile devices than they do with print directories, though the familiarity and utility of the classic print books still remain. The definition of what a directory is hasn't changed. It has expanded.

In a similar fashion, Directories Philippines Corporation has expanded in the same way the definition of its flagship product has. While it started and continues to publish the ubiquitous Philippine telephone directory that lists thousands of businesses around the country, the company has expanded to be a service company that assists SMEs and their customers in navigating the digital world. Just as "directories" in computers help people navigate their files by having these files connect and reference each other, DPC helps people and businesses be productive and get work done by helping them connect to each other and find each other easily. And still, the company continues to publish its trusted print directory, just as the term "directory" continues to bring up images of thick yellow pages to the minds of people when they hear the word.

DPC continues to expand the definition of what type of company it is. Aside from expanding from print to digital, in recent years we have expanded from products to services as well, just as the term "directory" expands to include collections of directions and ordinances. DPC now offers various marketing services that show off our expertise in a wide range of industries. Beyond offering print and digital ad products, we create full digital ads, social media ads campaigns, content for blogs, and more. We also create bespoke online tools, like CMS, filing systems, and more for our partners.

It is a true expansion, and not merely a transition, as DPC has decided to further integrate its classic print directory with its online products and services. Each partner print ad will now have a corresponding QR code that leads to a accompanying online business page that has robust features such as connections to the partner's Viber/FB Messenger/WhatsApp accounts for quick responses to inquiries, connections to the partner's company Facebook and Twitter feeds, a job application tool, and an expanded products and services catalogue.

And the reason DPC is able to continually expand its own definition is because of the hard work and dedication of the people who work for us. They continue to learn more, to serve more, and to stretch what they are willing to do to help our partners. This is why Filipino companies continue to go to DPC for help in growing their businesses.

No matter how much the world changes, DPC adapts and changes with it, without losing sight of what our original vision or definition is. Like language, we evolve, we expand, and we progress.

Ricardo D. Bautista
President

BEST PRACTICES WHEN DOING E-COMMERCE

As business owners, the opportunity for success and sustainability is exciting and challenging at the same time. If you have launched your online store or is still in the planning stages of doing so, it is important to keep in mind that a strong online presence is vital to any business.

It is a fact that competition in the digital space can be tough. You will be competing with local and even international brands for customers who will avail of your products or services. That is why it is important for you to understand every detail of how E-Commerce affects your business. Here are some best practices to help you increase conversions for your ecommerce store.

USE QUALITY PHOTOS AND VIDEOS

Humans are visual creatures. With actual quality images posted in your website, customers are more likely to stick around and learn more about your products and services. It will enable them to trust your brand and develop confidence in you as source.

MAKE NAVIGATION, FILTERING AND SEARCH SIMPLE AND CONVENIENT

Most customers shop online because of convenience - saves them the cost of driving to stores, paying parking fees and even the thought of waiting in line. You can translate the same convenience by making your customer's visit to your website as smoothly as possible.

Design a logical structure for users to navigate and search easily through the pages. Menus are a great way to stay organized and group contents according to relevance. Keep in mind that your objective is to make life easier for consumers and smoothly take them to the most important step - a purchase or other targeted action like leaving contact details, registering or more.

HAVE MULTIPLE WAYS TO CONNECT WITH YOUR BUSINESS

It is important that potential buyers understand that there is somebody on the website available to attend to their needs. The best way to show this is to enable various ways to connect and communicate with them. A contact page with an e-mail, phone number, social media profile links and live chat are a must in your e-commerce website.

ACCEPT AS MANY PAYMENT OPTIONS AS POSSIBLE

Alternative payments options are essential for any ecommerce website regardless of industry. Businesses will get competitive advantage, increased conversion and sales and improved customer confidence by eliminating limited payment options

HAVING REVIEWS AND EMBRACING THEM

Every review posted, good or bad gives you important feedback coming from your actual customers. It will allow you to identify your strengths, weaknesses and areas that need to be focused on. Reviews can influence consumer decisions and also strengthen the brand's credibility. The way you manage these reviews will gain you customer trust and confidence that can also encourage other people to support your business.

IMPORTANT ELEMENTS TO INCLUDE WHEN DESIGNING A WEBSITE

Website is a critical component of any brand's online presence. With the tight competition, having a website might not be enough - layout, design and user experience plays a huge part with how potential and existing customers support a business. Here are some recommended features to take note when designing your website.

YOUR BRAND'S STORY

Customers will support businesses they can connect with. The more consumers understand what the emotional connection your business has with them, they are more likely to choose you over other options available.

WHO YOU ARE AND WHAT YOU DO

A stunning website should also be able to send the message across your target audience. Despite aesthetics, if a customer feels lost about who you are and what your offerings are while looking at your website is definitely a no-no. Your site visitors should always have that confident feeling of what they are expecting from you even with just a few clicks.

RESPONSIVE DESIGN

Making your website responsive is crucial to your business if you want to provide your consumers a great user-experience. Keep in mind that customers use variety of devices to access the web and most often than not, thru their mobile phones. Ensure that your design is adaptive to any device and practically for everyone.

A GREAT USER EXPERIENCE

User Experience also known as UX is an important factor when designing your website. Having a user-centered design will definitely improve the quality of the user's interaction and perceptions about your brand, your products and any related services.

SOCIAL MEDIA ICONS

It is a given that links to your social media like Twitter, Facebook, LinkedIn, etc. should be part of your business website. Your social media icons should be on every page of your website - either in the header or footer. Having them at the right place will invite visitors to be engaged to more of your contents in various platforms.

CALL TO ACTION

Your business website is already a Call-to-Action on its own. Phone numbers, email address or a contact us form requesting for more information are essential in a website. Having them in place will give you the opportunity to never miss any potential client who visited your site.

AN FAQ PAGE

Your FAQ page will be your organized collection of commonly asked questions about your products and services. This quick information reference will guide your customers in making a purchasing decision even without them needing to contact your business.

SOCIAL MEDIA FOR BUSINESS: A MARKETER'S GUIDE

The use of social media for businesses is a great way to connect with customers, learn about competition and develop an identity for a brand. The main social media platforms that can be used for business include Facebook, Twitter, Instagram and LinkedIn. But not all social media platform can be a good fit for every business. It is important to understand that each platform has a mission, purpose and unique audience. Here are descriptions of the most popular media platforms for businesses and decide which among these platforms are suitable and efficient for you.

FACEBOOK

Facebook is considered the most popular social media network that has a varied audience. Currently with billions of active users every month, it is a fact that every business should have at least a Facebook page. Thru Facebook, be able to share practically everything from photos to important updates relevant to your business. With a business account, you will have access to advertising tools and analytics that can be used to understand what type of followers and customers you have and meet your business goals. Business pages also allow you to customize and highlight information such as contact information, hours of operation, payment channels and the products and services you offer.

INSTAGRAM

Instagram is a visual social media platform with its fair share of one billion active users in 2020. Aside from sharing visually pleasing photo or video contents, Instagram Live and Instagram Stories can be tools for businesses to promote products and services. But keep in mind that this platform is almost entirely mobile and has built up its name on users being able to engage with more visual content brands. Make sure you have a good eye for detail and at least have basic photography skills that would give your business high-quality photos and videos. Remember, people are visual creatures, content like photos and videos have such great engagement rates.

TWITTER

Twitter is the best platform for businesses who wants to reach and connect with a new audience. This is the go-to social network for you to communicate with your fans and customers effectively. However, since Twitter is great for short updates, images, videos, links, polls and more, not all businesses may find it fitting for them. This platform may not be your kind of social network if you have a highly visual portfolio. Companies that have interesting content and can be expressed in an engaging 240 characters or fewer. Twitter can be a great tool for quickly spreading the word. The use of hashtags and users with a lot of followers retweeting your content could help your business go viral. In Twitter, a balance between sharing your media and interesting, relevant content is key to engage Twitter users.

PINTEREST

Pinterest is a social network where people find inspiration and ideas for their interests and hobbies. It is known as a "visual discovery engine," since Pinterest is the only social media platform to offer visual search. Users are allowed to save and display content by "pinning" digital bulletin boards that can also be organized by category. With Pins, people find more information like product details and even location maps on products they're looking to buy but not like those of business hours.

Pinterest is recommended for niche businesses. It is a good marketing tool for businesses under categories like DIY projects, fashion, exercise, beauty, photography and food.

SNAPCHAT

Snapchat is another social media platform that supports short, temporary sharing of photos and videos. Like Instagram, this is another mobile-only, visual app known for disappearing content after 24 hours. Businesses who uses Snapchat must make the content fun, brief and engaging. However, aside from the fact that posts are temporary for Snapchat, only users who have added you can view your Stories content.

YOUTUBE

YouTube is a popular video sharing website owned by Google where registered users can upload, share videos, rate and comment on content. Businesses on YouTube must have creative, visual and educational components. It is important to have a dedicated video editor that produces relevant content for the business. But businesses need not to have a channel to market on this platform. Some companies make use of YouTube Influencers who publish regular contents and maintain a large number of audiences. The ability of these YouTubers to sell or recommend a product or service to their audience is an easy way to market your business on the platform.

LINKEDIN

LinkedIn is a powerful platform especially designed for professional networking. Users create profiles that are similar to resumes while companies can create pages that showcase what their business is all about. It is a perfect place to find top talents, maintain professional contacts, build new connections and promote your business. You can also join industry-specific LinkedIn Groups to ask and answer questions. This will help you position your brand as an industry leader in a specific field and bring users to your company page and website. Like Twitter, it is recommended to have a combination of original and shared contents relevant to your business.

TIKTOK

TikTok is the newest social media platform where users create and share short videos. Given that TikTok is mostly popular to a relatively "young" audience, it can be challenging to hit the right tone to promote a brand. The key here is to have a keen understanding of what your business is about and translate it to adapt to the TikTok app community.

SOCIAL MEDIA MARKETING TIPS

It is a fact that Social Media has become a vital component for any business marketing efforts. With a well-executed strategy, the benefits you get from social media marketing can be endless and difficult to ignore. It can be challenging but taking it seriously can ensure you potential leads, customers, online presence and increase sales. Use these social marketing tips to perfect your strategy until you've finally created a winning strategy for your business.

01

ESTABLISH YOUR OBJECTIVE

To ensure successful social media strategy, you must first define your objectives clearly. Writing down your objective is one of the first things you should do to jump start your social media campaign. Make sure that they are specific, precise and measurable.

02

KNOW YOUR AUDIENCE

You need to understand and know your target audience, you must identify your users' needs and what they want to ensure a successful social media strategy.

03

IDENTIFY WHICH SOCIAL PLATFORM IS RIGHT FOR YOUR BUSINESS

With a clear objective and understanding of your audience, matching that knowledge to the right platform is crucial to your businesses success. Social media profiles are a great way to connect to your prospects and customers but not all of them can be a great fit for your business. Make sure to know which platform will allow you to maximize your brand reach on social media, engage with the right people, and achieve your social media goals.

04

HAVE A SOCIAL MEDIA CALENDAR

Scheduling your post is very important. Having a well-organized social media calendar will help keep your users engaged with you. Having a Social Media calendar will help you know what works and improve on your social media platform.

05

TAKE ADVANTAGE OF THE ANALYTICS

Use the built in analytics of the social media platforms to your advantage, this will help you know what works for your audience and each platforms. By doing this you will help explore how users want to engage with your company page.

06

ANALYZE YOUR FOLLOW GROWTH

As you post and grow the number of your engagements, your followers must also increase. If you don't see any progress, you need to experiment on something new with your content.

07

TAKE ADVANTAGE OF AD TARGETING

Social media continues to become a more crowded space, this will make it more difficult for most businesses to grab the attention of your customers. You can solve this problem with ad targeting, social media platforms like Facebook, Twitter and Instagram became better at understanding who your ideal customers are and will help you target your audience.

SEARCH ENGINE OPTIMIZATION (SEO) BASICS

This guide will prepare you and your business. Most of us would have likely heard of SEO. If you haven't, you can easily look into Google and get tons of results for its definition alone. But for our common understanding, SEO stands for Search Engine Optimization, which is the practice of increasing the quantity and quality of traffic to your website through organic search engine results. It might still sound a bit complex, but it's quite simple - or at least the basics are. Your business just needs to be searchable and relevant to your target market. This guide will prep you and your business about SEOs.

1. LEARN WHAT YOUR CUSTOMERS ARE ACTUALLY SEARCHING FOR

Nowadays, customers most of the time search for the products and look it up in the internet before they actually make a purchase. So you have to think like your customer. Think about what your customers might be searching for and write your ideas down in a notepad. If you have the chance, you can even ask them directly. This information will be handy in choosing the right keywords you can use for your SEO.

2. UNDERSTAND YOUR COMPETITION

Search for the most important products and services you offer and note the most prominent websites in the search results. Remember, knowing how the competition works gives you an advantage on how you should work on your strategies too.

3. PLAN YOUR SITE

While understanding what consumers want and the keywords they use to find those products and services, identify pages on your website that can address those search queries.

4. OPTIMIZE YOUR SITE

A mobile-friendly site is important for two reasons. First, according to Google, more than half of searches come from smartphones. Second, Google now ranks all organic search results for desktop and mobile devices based on a site's mobile experience, including page speed.

5. PRODUCE REGULAR AND QUALITY CONTENT

Regularly publishing your own, high quality content is the way to make sure that you can strategically use SEO to your advantage. This will help you compete with other brands from the same industry. Plus, quality content provides great user experience making them come back for more.

6. BUILD YOUR SOCIAL MEDIA NETWORK

Social media enables you to connect with your customers and offers an audience for your content. Let's face it, social media helps build authority to your business. Search engines like Google give a lot of weight to a website's credibility, making it a vital SEO factor to look into. In the eyes of search engines, if your page or domain has high value, it has high authority and a better chance to rank above other sites with not-so-strong influence.

7. UNDERSTAND GOOGLE ANALYTICS

Analytics in Digital Marketing is similar to financial reports in businesses and both are essential to track performance. Google Analytics contains valuable data that you can use to monitor (and improve) the search performance of your business. What's even best? The Google Analytics tool is absolutely FREE to use.

WIX **DPC**

DO YOU WANT TO LEARN
HOW TO MAXIMIZE YOUR BUSINESS SUCCESS ONLINE?

LET **DPC** PROVIDE YOU WITH THE TOOLS,
LEARNING, AND SERVICE TO ACHIEVE
YOUR ONLINE BUSINESS GOALS!

OUR
ACCOUNT
MANAGERS
ARE READY
TO HELP
YOU!

PROFESSIONAL WEBSITE DESIGN

DPC is the official local partner of Wix.com - one of the world's leading web building platforms. We combine the cutting-edge technology of Wix and the legacy built expertise of DPC to provide multi-functional 360 solution websites for a wide-range of business needs.

E-COMMERCE TRAINING & MANAGEMENT

DPC can help you bring your business online with our complete end-to-end E-commerce solutions. We will help you professionally set-up your online store, help you manage and understand online payments, connect you to the right logistics providers, as well as train you on managing customer satisfaction.

SOCIAL MEDIA MARKETING

Let DPC help you maximize your social media business assets by providing expert campaign and account management. We will provide advice on the best content to use, and when to post it, as well as guide you on creating the best sponsored ads using the right budget and target audience.

DIGITAL ADS CAMPAIGN MANAGEMENT

With DPC being a Certified Google Partner for the last 10 years, we'll make sure to craft effective and value for money ad campaigns that will broaden your reach across the internet, assure traffic to your website, and give a concrete return on your investment!

360 ONLINE BUSINESS TOOL MANAGEMENT

With the number of different tools needed to run a business online these days, it can be expected to get a bit overwhelming. DPC will help and train you and your business to find the best way to streamline and integrate all your online business tools in the most user-friendly, cost-efficient, and effective way!
