Commonwealth Insurance Company (CIC) was established in 1935 by Don Andres Soriano, who also founded San Miguel Brewery. Computed to be in its 7th decade, CIC is one of the most experienced insurers in the Philippines. Surviving the challenges of time, its ownership has been transferred from various hands until the present professional group of enterprising investors took over on October 7, 1997. These investors were led by Mario A. Noche, who eventually became the Chairman of the Board and concurrently the Chief Executive Officer and President of Commonwealth Insurance Company.

CHEMICALS

HYCO
Since 1947

Hy-Q Chemical, Inc. offers its major products line: Hyco Natural Spices and Seasoning Powder. It is used for snack foods, noodles, soups, sauces, baked goods, meats and other products in the food industry. Yellow Pages	46
--------------------	----

ABOUT THE COVER

The Yellow Pages has always been about providing choices. There are thousands of verified businesses listed and hundreds of categories within its pages. But more than simple quantity, the Yellow Pages offers diversity as well. There are categories that include businesses that appeal to a wide variety of customers as well as categories that fulfill a specific need of a specialized market. To highlight this, the 2023-2024 directory expands its showcase of diverse industries beyond its pages and into its cover. Even before opening the directory, choice businesses from industries that have been well-served by the Yellow Pages are already highlighted for ready buyers to check out. Like a store display presenting a wide and colorful variety of wares, the Yellow Pages directory cover gives readers the feeling of exploration and discovery one experiences when window shopping at a high class store. As always, the choice of the trusted partners you want to work with and patronize are at your fingertips thanks to the Yellow Pages.

PUBLISHER'S MESSAGE

For decades, the answer to the question "What is a directory?" was straightforward. It was a book or collection of directions, rules, or ordinances. The Merriam-Webster dictionary still defines it this way. For most people, it was a book like the telephone directory which listed the phone numbers of people living in a certain area. Later on, it expanded to include businesses that operated in a particular area as well.

As technology progressed and we entered the computer age, programmers had to find ways to explain complex new concepts to users by comparing them to more familiar objects from daily life. This is the concept of skeuomorphism. It makes something easier and quicker to understand by borrowing elements from something already familiar. So to explain the concept of the catalogue structure that computers use to organize their file systems, they used the term "directory". People were familiar and comfortable with the idea of directories, so computers borrowed the term, expanding the word to mean more. Now, more people probably interact with directories in computers and mobile devices than they do with print directories, though the familiarity and utility of the classic print books still remain. The definition of what a directory is hasn't changed. It has expanded.

In a similar fashion, Directories Philippines Corporation has expanded in the same way the definition of its flagship product has. While it started and continues to publish the ubiquitous Philippine telephone directory that lists thousands of businesses around the country, the company has expanded to be a service company that assists SMEs and their customers in navigating the digital world. Just as "directories" in computers help people navigate their files by having these files connect and reference each other, DPC helps people and businesses be productive and get work done by helping them connect to each other and find each other easily. And still, the company continues to publish its trusted print directory, just as the term "directory" continues to bring up images of thick yellow pages to the minds of people when they hear the word.

DPC continues to expand the definition of what type of company it is. Aside from expanding from print to digital, in recent years we have expanded from products to services as well, just as the term "directory" expands to include collections of directions and ordinances. DPC now offers various marketing services that show off our expertise in a wide range of industries. Beyond offering print and digital ad products, we create full digital ads, social media ads campaigns, content for blogs, and more. We also create bespoke online tools, like CMS, filing systems, and more for our partners.

It is a true expansion, and not merely a transition, as DPC has decided to further integrate its classic print directory with its online products and services. Each partner print ad will now have a corresponding QR code that leads to a accompanying online business page that has robust features such as connections to the partner's Viber/FB Messenger/WhatsApp accounts for quick responses to inquiries, connections to the partner's company Facebook and Twitter feeds, a job application tool, and an expanded products and services catalogue.

And the reason DPC is able to continually expand its own definition is because of the hard work and dedication of the people who work for us. They continue to learn more, to serve more, and to stretch what they are willing to do to help our partners. This is why Filipino companies continue to go to DPC for help in growing their businesses.

No matter how much the world changes, DPC adapts and changes with it, without losing sight of what our original vision or definition is. Like language, we evolve, we expand, and we progress.

Ricardo D. Bautista
President

Blogging is one secret weapon business owners can use as an added feature to their websites. It can be used to heighten brand visibility not only in social media but in search engines as well. When used properly, a blog section of a business website can be a powerful tool to make a site stand out from the competition. Here are some benefits a business website can get with a blog feature.

Business Guide:

Why Business Websites Need a Blog

Blogs Focus on What Customers Care About

Blogs are focused on creating content featuring topics that the business' target market cares about. The blog posts or articles may not feature the business or its offerings directly, but instead talk about topics potential customers may find interesting. This is why it's important to have both sections present in a business website as they fulfill different needs.

Blogs Keeps a Site Active and Optimized for SEO

Since there is no limit to the number of topics that are related to a business, there is practically a wide range of topics to be covered. Blogs can be updated daily or even more frequently if you put enough effort into finding new topics for your content. Having a section of the website that is constantly updated will help make a site rank higher in search engines since they tend to prioritize websites that are regularly updated and with newer content.

Blogs Bring Both Awareness and Conversion

Social media posts and content might be better at getting attention and creating awareness among all the other platforms, converting views or engagement into leads or sales can be a challenge. Their content do not ask the viewer to go beyond the platform plus most people have created a habit of just scrolling past social media posts once they have seen it. Websites are often better at conversion as they can lead a viewer through various sections, each engaging the viewer on different stages of their decision-making process.

Whatever the business size, having the opportunity to directly communicate with your customers that express interest in your offerings is vital to your success. The digital space can be a highly competitive arena and can be tough when you cannot keep up with the demands online. That is why it is important for business owners to understand how E-Commerce affects your business. Here are some best practices to help you increase conversions for your ecommerce store.

Business Guide:

Best Practices for an e-Commerce Website

Upload quality photos and videos

It is a fact that humans are visual creatures. With well-curated, high quality images posted in your website, customers are more likely to be interested about your products and services. It will allow them to have confidence in your brand and consider you as a reliable source for their needs.

Simplify your menus and add a search bar

Put up just enough menus to choose from to avoid confusing your audience. You can use broad terminologies to categorize your product lists and with a search bar, customers will have an easy time to find what they are looking for. These things can make your customer's visit to your website as smoothly as possible.

Have multiple ways to connect with your business

Customers appreciate getting the attention that they need when they reach out to a business for an inquiry. The best way to show this is making available variety of ways for them to connect and communicate with you. A complete contact page with your e-mail, phone number, social media profile links and live chat are must-haves in your e-commerce website.

Accept as many payment options as possible

Any ecommerce website must have alternative payment options available. Do not give your customers an opportunity to not proceed with their purchase just because their preferred payment option is not available in your website. Take advantage of that edge, an increase in sales conversion and improved customer confidence by eliminating limited payment options.

Feature Customer Reviews and Testimonial

Another way to boost credibility to your brand is by posting reviews and testimonials of your actual customers. These feedbacks, whether good or bad will allow you to identify your strengths and areas that you need to improve on. It can also influence a consumer's decision to complete a transaction and the way you manage these reviews will encourage other people to support your business even more.

Social Media has become a necessary part of any business marketing strategy. It allows businesses to connect and interact with its customers. Other than providing information, using social media can influence them with their purchase decision making.

Here are some guide questions you can ask yourself when you are creating a social marketing strategy for your business.

Business Guide:

Social Media Marketing Tips

01

What is your objective?

Before you can execute a successful social media campaign, it is best that you have identified and established what your objectives are. It has to be specific, precise and measurable.

02

Who are your target audience?

When you know and understand who your target audience are, you will be able to craft relevant contents that are attuned to what your follower's need and want.

03

Which Social Platform is best for your Brand?

There are way too many social media platforms to choose from - Facebook, Instagram, YouTube, Tiktok to name a few. Choose and focus your time with the one that can engage with the right people and is aligned to help you achieve your social media goals.

04

What topics can you post?

The key for customer engagement is to post interesting topics that your audience can relate with. You can post product photos, branded graphics, on-going promotions, blog posts, and a lot more. It is also important to use a social media calendar that can help you keep track of what content type works and improve your customer reach and engagement.

05

How do I know my follow growth?

As you post and grow the number of engagements for your page, your number of followers should also show a significant increase. If you do not see that much progress, it is important to experiment on different strategies that can stir the interest of your target audience. Always make sure that they have something new to look forward to with your content.

With everyone going digital, having a website is a must for any business. The way how your website communicates with your target audience is a crucial part. Remember, a good website will reflect who you are and will play a key role in your digital marketing strategy. Here are the recommended features to keep in mind when designing your website.

Business Guide:

Important Elements to Include When Designing a Website

Your Brand Story

Customers tend to support businesses who they can relate to. The more that your brand content can emotionally connect with your audience, there is a higher chance for them to choose you over competition.

Products or Services

Your website should be able to speak to your audience the moment they landed on your site. More than the aesthetics, it is a must to make your customers able to immediately identify what your brand can do for them with just a few clicks. Never give your customers an opportunity to get lost in your website and find what they need elsewhere.

Responsive Design

Always take into consideration that customers use a variety of devices to access the web and most of the times thru their mobile phones. Ensure that your design is adaptive to any device and its parts will not be all over the place. Having a user-centered design will definitely improve the quality of the user's interaction and perceptions about your brand, your products and any related services.

Social Media Icons

Your available social media handles or links should be part of your business website. Your social media icons should be on every page of your website - either in the header or footer. Having them at the right place will invite visitors to be engaged to more of your contents in various platforms.

An FAQ Page

Your FAQ page will be your organized collection of commonly asked questions about your products and services. This quick information reference will guide your customers in making a purchasing decision even without them needing to contact your business.

Tools to Engage & Interact with Users

Tools such as live chat, contact us form and subscription form will give your customers a means to get in touch with you for questions or product inquiries. Customers will be more confident doing business with a brand that can attend to their concerns. Not only it will make your customers happier, but it can also have a direct positive impact with your revenue.

YELLOW PAGES QUICKLIST

The Yellow Page Quicklist is where you can find business product and service names arranged in alphabetical order in just a minute of one's time. It is advisable to use it if he/she is familiar with the name of the business he/she is looking for.

DPC

A photograph of two women sitting at a table, looking at a tablet together. The woman on the left is wearing a white long-sleeved shirt and a black and white patterned skirt. The woman on the right is wearing a light-colored top and a black watch. On the table in front of them are several documents and a pen. The background is slightly blurred, showing an indoor setting with large windows.

Engage in the Right Platform

Print directory has the Yellow book

The Yellow Pages (Metro Manila Business Directory) is the country's utmost source of trusted and legitimate local business listings. It provides Filipinos with a way to connect with thousands of local businesses, and be exposed to their variety of products and services! Discover Business listings which have been expertly arranged by their category, or immediately find known businesses via our Alphabetic Business List.

Digital Yellow Pages PH has 3 platforms

Website, mobile app, and e-book

Yellow Pages Online is your go-to online directory when looking for local businesses, products and services. Ready buyers who are looking for legitimate business partners for their various needs can easily search through YP Online's robust business listings. Users can log-in to review businesses they have tried, bookmark their favorite suppliers and even compare the products and services they offer. You can even instantaneously chat and contact the businesses for more details about them.

The Yellow Pages E-Book are for users who are more used-to or comfortable with the format of the print book, yet want the convenience and portability of a digital version! It contains all the same information of the Print Book, but with added digital features such as a quick text search function, and interactive table of contents.

The Yellow Pages Online PH Mobile App has all the same functions and features as the web version but optimized for a great mobile user experience. It has access to the same database of trusted and legitimate business listings. It is available in the Apple App Store and Google Play Store.

Get Access To Your YP Business Pages' Free Features

How To Claim Your YP Business Page

Your YP Business Page has many great business tools for your to use!

1

Go to yellow-pages.ph. Log in using your Facebook account or create a new YP account

2

Add your business

3

Fill-up the Claim Your Business form, and expect a call from the YP.

YP Business Tools give you the control over your YP Business Page.

Consolidated Business & Contact Info

Have all your businesses relevant contact information, business locations, or online platforms in one place for a user to easily find

Have your Business Properly Geo-Tagged in Google Maps

When you upload your business to YP and place your location, we'll make sure to properly Geo-Tag your business so customers will easily find you!

Full Feature Product Catalog

Be able to upload your entire product or service catalog. You can organize and categorize them for easy user browsing. Each product or service has its own page so you can place full details, as well as get inquiries via our Inquire Now button.

Announce Events or Promos!

Be able to announce and share with your customers any upcoming event or promo! We have specialized widgets to make sure all information about those is captured and shared!

Messenger App with Historical Inbox

Make sure you capture every lead or inquiry via our Messenger feature, where users can send inquiries or questions on your business. All messages will be kept and stored, for you to organize and use as future leads.

What's New Business Feed!

Make sure to keep your customers updated on how your business is doing by regularly posting on your What's New feed. You can share product updates, business announcements, and more on this feed.

Upload Your Business' Media Library

Have a historical place to upload and keep your business' pictures or videos for you or your customer's easy reference!

Post Jobs Listings!

We have a full feature Job Posting widget, that has all the necessary information you'd need to share and know about a potential application. Use this to get applicant leads that you can funnel into your hiring process.

**DO YOU NEED HELP TO MAXIMIZE
YOUR BUSINESS SUCCESS BOTH ONLINE AND OFFLINE?**

**LET DPC PROVIDE YOU WITH PERSONALIZED
SERVICES AND INDUSTRY-LEADING TOOLS
TO HELP YOU ACHIEVE YOUR GOALS!**

BUSINESS & MARKETING STRATEGIES

We will collaborate with you to make sure that all our proposals are rooted in thoughtful and purposeful strategies that are unique and fitting to your business challenges and needs. We will work to provide you not only with tools to help, but also the thinking and plans to help you use the tools the best way you can.

WEB DESIGN & ONLINE ECOSYSTEM MANAGEMENT

We don't just build and design professional and engagement focused websites, but we will also work to make sure to explain to you how it all fits in your entire online ecosystem. The goal is to make sure all your online assets, channels, and messages work seamlessly together towards your overall business objective.

WEB APPLICATIONS, E-COMMERCE SYSTEMS, & MORE

We are committed to making sure your website fulfills a purpose and is able to actually do business contributing actions regularly. Our team can build the right web applications for you, from content-management systems to e-commerce platforms as well as train your team to make sure these are used correctly.

ONLINE ADS & SOCIAL MEDIA MANAGEMENT

We understand that part of the success of any campaign is to make sure the plans and executions reach the right people at the right time. We have a team of certified Google and Facebook campaign managers that will make sure to create a personalized and constantly optimized campaign for you and your business.

CONTENT CREATION SERVICES

We acknowledge that the key to success of any campaign and plan in this growingly cluttered world is break-through and remarkable content. We have a team of qualified and experienced content creators that can make sure your website, blogs, and social media pages are filled with the right content to connect with your consumers.
